

Caroline Bentley - Davies

Differentiation and Adaptive Teaching

At the John Taylor Teaching School Hub
Thursday 5th December 2024 (9am - 3pm)

This conference will unpick strategies for adaptive teaching and will look at why this is the latest approach, rather than differentiation. Delegates will go away with a good understanding of the latest thinking and research, but most importantly practical strategies for teaching lessons that help make all pupils make good progress. It will also unpick the key area of responding and adapting teaching within the lesson.

Objective: By the end of the day teachers will be able to identify many practical, exciting teaching strategies that they would like to use in lessons. Understand the importance of adaptive teaching and teaching that promotes challenge. Have a clear idea about how they can incorporate some of the strategies into lessons – feel inspired and motivated to develop these techniques.

Course Leader: **Caroline Bentley-Davies** is the best-selling author of seven books for teachers. Caroline trains teachers across the UK and overseas and her courses are noted for being practical, inspiring, and helpful to teachers.
